PRISON ACCESSORIES SERIES

4 - MAN PEDESTAL TABLE

SPECIFICATIONS&OPTIONS

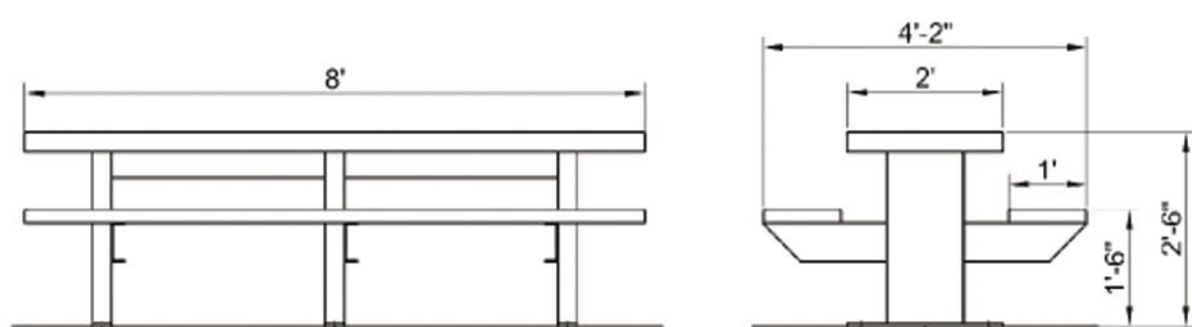

Our Pedestal Table is fabricated with a 12 gauge top and 14 gauge seats. 3" square tube seat supports weld to the 4" square main tube pedestal which mounts to a 3/8" base plate. Tables typically ship fully assembled with a factory primer finish and warrantee to match your project specifications. This unit can be either bolted in place or welded to one of our many embed designs upon request. Options include mild steel or stainless steel seat tops, powder coat finish, 4, 6, and 8 seat configurations, engineered to your project' s specifications.

BENCH TABLE

SPECIFICATIONS&OPTIONS

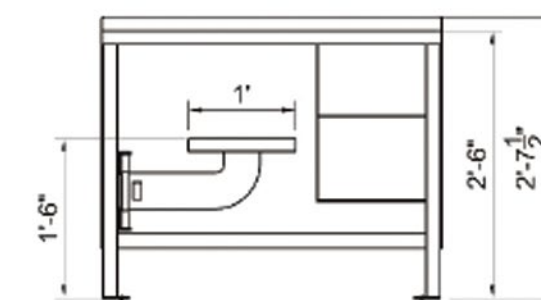

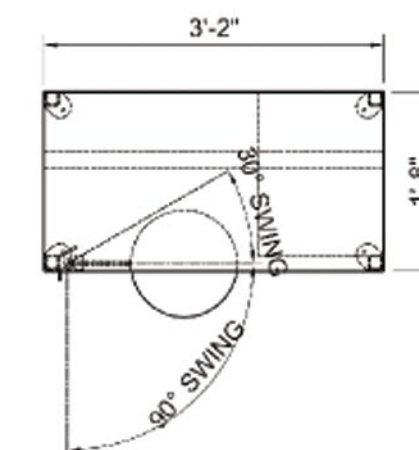

Designed for heavy duty institutional seating needs. Tops and benches are 10 gauge, vertical support is constructed of 7 gauge formed channels. Seat support is 2" x3" x3/16" angle. Features include prime finish, bolted or welded in place, shipped fully assembled, and warrantee to match project specifications. Options include powder coat finish available, seat top can be mild steel or stainless, available in 4, 6 and 8 seat configurations, embedded sublimation image available, and engineered to your projects specifications.

FLOOR MOUNTED DESK

SPECIFICATIONS&OPTIONS

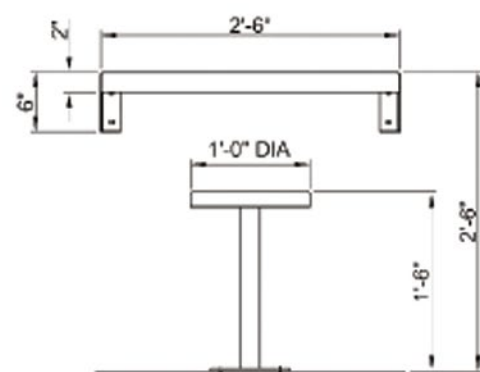

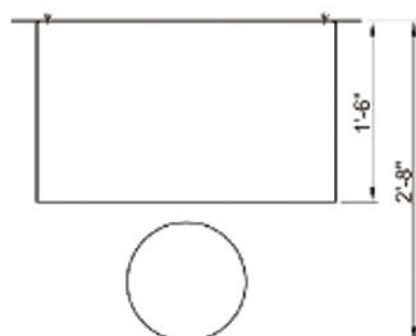

Our Floor Mounted Desk incorporates a 10 gauge steel top held up with 2" x2" x3/16" tube supports. It comes with a 12" diameter seat (either single or double configuration) that is supported by a 3/8" x4" arm which swivels out of the way when needed. Standard 14 gauge seat tops can be provided in both mild and stainless steel. We primer finish all mild steel (#4 finish stainless steel top optional). Two optional shelves constructed of 12 gauge steel may also be provided. A warrantee can also be matched to product specifications. Options include mild steel or stainless steel seat top, available powder coat finish, engineered to your project's specifications.

WALL MOUNTED DESK

SPECIFICATIONS&OPTIONS

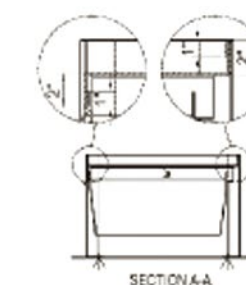

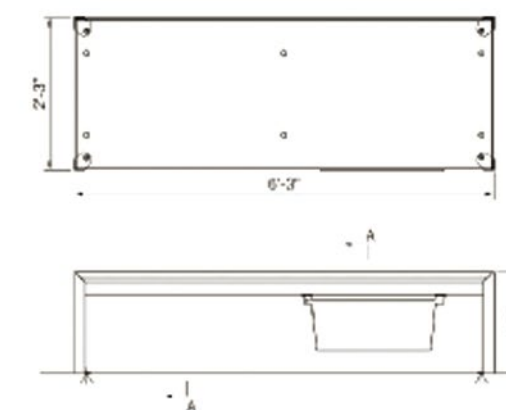

Our Wall Mounted Desk is fabricated from one piece of 10 gauge steel with sides flanged and edges ground smooth. We primer finish all mild steel (4#finish stainless steel top optional). This unit can be either bolted in place or welded to one of our many embed designs upon request. A warrantee can also be matched to product specifications. Options include mild steel or stainless steel seat top, available powder coat finish, engineered to your project's specifications.

FLOOR MOUNTED SINGLE BUNK

SPECIFICATIONS&OPTIONS

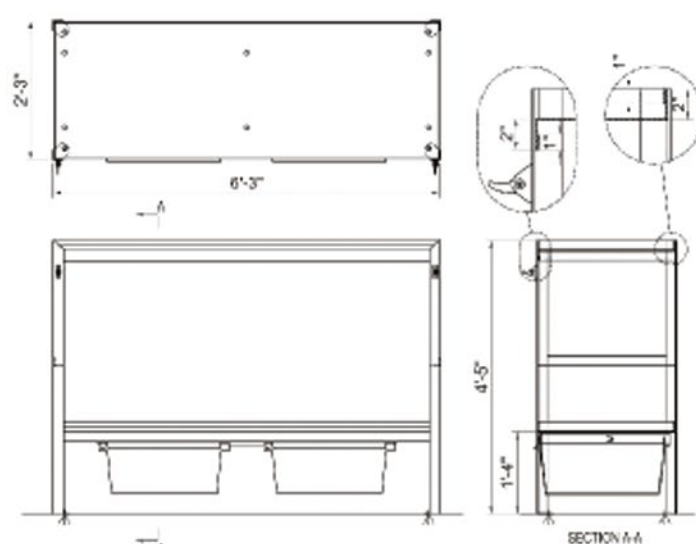

Single Bunk with 2" x 2" x 3/16" angle legs is anchored with 3/16" corner-less pads. Bed pan is 10 gauge steel hemmed front and back for strength and to eliminate sharp edges. Features include prime finish, bolt down or weld in place, shipped fully assembled, and warrantee to match project specifications. Options include 14 gauge drawers with hasp for paddle lock, powder-coat finish available, and custom engineered to your projects specifications.

FLOOR MOUNTED DOUBLE BUNK

SPECIFICATIONS&OPTIONS

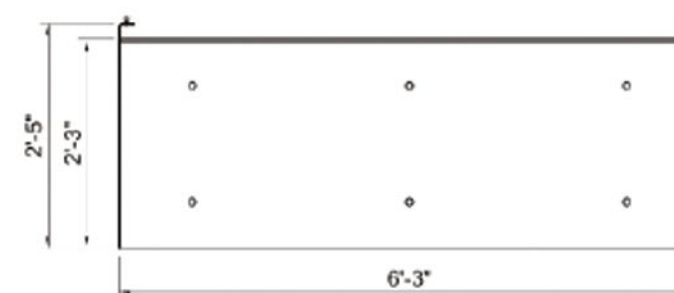

Double Bunk with 2" x 2" x 3/16" angle legs is anchored with 3/16" corner-less pads. Bed pan is 10 gauge steel hemmed front and back for strength and to eliminate sharp edges. Features include prime finish, bolt down or weld in place, shipped fully assembled, and warrantee to match project specifications. Options include 14 gauge drawers with hasps for the paddle locks, optional ladder made with 2" x 2" x 3/16" angle, powder-coat finish, and custom engineered to your projects specifications.

WALL MOUNTED BUNK

SPECIFICATIONS&OPTIONS

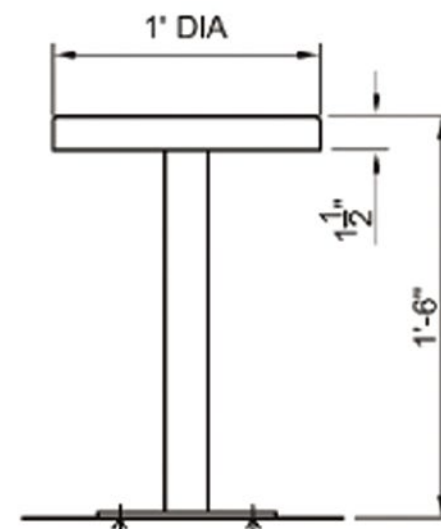

Wall mounted bunk fabricated with 3/16" end gussets hemmed and ground to remove all sharp edges. Bedpan is 10 gauge steel hemmed front and back. Features include prime finish, bolt down or weld in place, shipped fully assembled, and warrantee to match project specifications. Options include 14 gauge drawer with hasp for pad lock, optional ladder made with 2" x 2" x 3/16" angle, powder-coat finish, and custom engineered to your projects specifications.

FLOOR MOUNTED STOOL

SPECIFICATIONS&OPTIONS

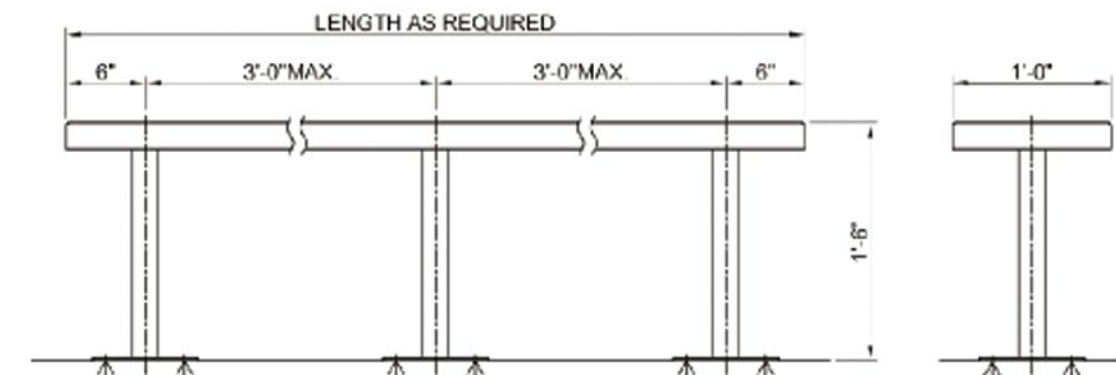

Our Floor Mounted Stool sits 18" high & is designed for heavy duty institutional seating needs. The pedestal support is a 2 1/2" tube welded to a 10 gauge seat top backing plate and 1/4" thick 8" X 8" anchor plate. Standard 14 gauge seat tops can be provided in both mild and stainless steel. We primer finish all mild steel (#4 finish stainless steel top optional). This unit can be either bolted or welded in place. A warrantee can also be matched to product specifications. Options include mild steel or stainless steel seat top, available powder coat finish, engineered to your project's specifications.

FLOOR MOUNTED BENCH

SPECIFICATIONS&OPTIONS
